

Beachcomber Family Retreat

xavier Beachcomber Family Retreats provide an opportunity for an enriching and rejuvenating holiday experience for the whole family.

Access to this service is considered as part of the family's overall package of support.

All Xavier families may be able to access 'beachcombers' with priority given to families who have:

-  Limited access to respite;
-  Children who receive palliative care, or are medically fragile;
-  Other extenuating circumstances

Xavier families wishing to access the Beachcomber Program may be able to negotiate to exchange some of their usual Xavier respite options for a Beachcomber weekend

Accessible accommodation can be booked at a variety of locations including North or South Coast, Hinterland, Stradbroke and Bribie Island for long weekend, midweek or negotiated longer periods.

Xavier's Beachcomber program offers:

-  Access to suitable accommodation at a location chosen by the family;
-  Assistance with requests for specialised equipment during retreat eg. bedrails, beach-buggy and porta-cot;
-  Financial assistance for families to meet the costs of accommodation
-  Limited financial assistance to enable families to employ their own carer

Other costs associated with the holiday including food, transport, entertainment and any contributions to accommodation costs etc. will need to be met by families.
